

Training course:

Understanding ISO 14001:2015 and setting up an EMS

Who it is for...

- ❖ Organisations that are considering setting up an EMS to become certified to the requirements of ISO 14001:2015;

Duration and requirements...

- ❖ 2 days
- ❖ Start time: 8:45am for a 9am start. End time: 5pm
- ❖ Attendance and participation of the full course is required

You will learn...

- ❖ the value of an effective EMS and its contribution to your business
- ❖ the background and development of ISO 14001
- ❖ the purpose, intent and key requirements of ISO 14001
- ❖ how to address the requirements concerning organisation context and planning
- ❖ how to develop an environmental policy and objectives
- ❖ how to determine environmental aspects and impacts
- ❖ the importance and relevance of environmental legislation
- ❖ approaches to implementing an EMS

Our ISO 14001 expert will give informative explanations and interpretations (and some working examples) of ISO 14001:2015 and demonstrate in an interactive workshop style how to comply with the core requirements.

Dates, venues and delegate rate...

Delegate rate:

- ❖ Non-residential £395 + VAT
- ❖ Residential £490 + VAT

Please refer to our website for dates and venues.

All events include: free car parking, refreshments and lunch.

"We were really scratching our heads in trying to understand the different clauses of the standard. This course seemed to inspire us with its explanations and working examples. We have since achieved certification to ISO 14001:2015. Very good value for money – especially compared to what we could have spent using an external person"

Nigel Green
Director, Brydon Limited
